Project Aim:
To develop a self-management strategy that can be individualized to a patient’s unique situation, needs, priorities and preferences to improve their outcomes and increase their quality of life.

Accomplishments: March-June 2017
• In-person core committee meeting May 4th, 2017 in Montreal QC.
  ◦ Members discussed and provided input for Phase 2 of the research project. This includes conducting focus groups/interviews to explore experiences, preferences and needs of adults with CKD and their caregivers’ regarding self-management.
• We were given ethics approval to go ahead with the focus groups in Calgary and Lethbridge.
• The environmental scan and scoping review results were presented at various conferences with a lot of interest from attendees.

We need your help!
Do you know of anyone with CKD (not currently on dialysis and has not had a transplant)?
Come join us in a focus group or phone interview which will take about an hour and a half (50$ reimbursement).
If you or someone you know is interested, please contact:
Maoliosa (Mo) Donald
University of Calgary
Phone: 403-210-6481
Email: donaldm@ucalgary.ca

Next Steps:
• Focus groups to take place in Calgary and Lethbridge, AB in summer and fall 2017 and in Toronto and London, ON fall 2017.
• Phone interviews to take place throughout the summer and fall of 2017.
